ENVIRONMENTAL CONSERVATION
Contents of Volume 19, 1992

Nr 1 — Spring 1992

Editorial Section:

Guest Editorial: *A Proposal in Observation of Biosphere Day: Repairing The Biosphere Through a Global Commons Trust Fund*, by Professor Christopher D. Stone 3–5

Guest Comment: *The Need for Environmental Impact Assessment before Financing*, by Antony L.T. McCammon ..... 6–7 & 22

Biosphere Day, by Nicholas Polunin 8

Updated Notice: *Index of Titles and Authors published in* Environmental Conservation *[1974–]* 2

Main Papers:

Environmental Priorities for Financing Institutions, by Dr Robert J.A. Goodland (5 tables and 10 annexes) 9–21

Environment, Banking, and Education: The Connections and Opportunities, by Professor Colin Lacey (fig. and 3 tables) ..... 23–8 & 58

Environmental, Economic, and Social, Aspects of Marine Aggregates' Exploitation, by Professor Roger H. Charlier & Dr Constance C. Charlier (3 figs and 3 tables) 29–38

Empirical Evidence for the Effect of Tropical Deforestation on Climatic Change, by Dr Colin Clark (12 figs and 4 tables)..... 39–47

Tundra Disturbance Studies, 1: Long-term Effects on Species and Biomass, by Bruce C. Forbes (6 figs and 2 tables) ... 48–58

Review Article: Modernizing the World Conservation Strategy, by Dr Michael B. Usher ..... 59–60 & 72

Environmental Implications of Aquarium-fish Collection in the Maldives, with Proposals for Implementation, by Dr Alasdair J. Edwards & Dr Alec Dawson Sherpherd (fig. and 4 tables) 61–72

Short Communications & Reports:

The Surrey Docks City Farm in London, by Joyce Anstey (3 figs) 73–4

Mammalian Species of the Ifon Game Reserve, Ondo State, Nigeria, and Their Management Implications, by E.A. Agbelusi & Professor Timothy A. Afolayan (2 tables) ... 74–6

Problems of Environmental Conservation for the Sekani Ingenika Band in Northern British Columbia, Canada, by Professor Colin Crampton 76–7

Strategy to Protect Earth's Biological Variety Offered by International Coalition, by Shirley Geer ..... 77–8 & 84

Notes, News & Comments:

The Foundation for Environmental Conservation: President's Report for the Year 1991 79–80

Environmental Help for Management, by David Shreeve 80

An Example to Emulate: The Elizabeth McAlmont Trust Association for Care of the Countryside, by Christine Marsh 81–2

The Social Origins and Impact of Deforestation in Central America, by Adrienne Cruz 82

Environment Protection Campaign in Southern India, by Rev. Dr Savari Ignacimuthu 82–3

Need of Universal Legislation to Protect Global Freshwater Supplies, by Robin Healy 83

Nigeria's Forests Gain from New National Park, by Gamini Seneviratne 83–4

Summer Institute for Environmental Values Education, by Deborah Hine 84

Conferences & Meetings:

Reports by Adrienne Cruz, Drs Denis A. Saunders & Richard A. Hobbs, and Nicholas Polunin; **Important Prospects** by Dr John Garland, J. David Laughton, François Roelants du Vivier, Dr Walter D.S. Leal Filho, and Hans Jurgen Jäger & L.J. Manning 85–9

Reviews & Notices:

Book Reviews by Professor W. Robert Stanton, Dr Arthur H. Westing, Professor Samir I. Ghabbour, and Dr Walter D.S. Leal Filho 90–2

Other Books etc. Received During 1991 93–6

Nr 2 — Summer 1992

Editorial Section:

Guest Editorial: *Ethnobotany, Biological Diversity, and the Amazonian Indians*, by Professor Richard Evans Schultes 97–100

Editorial Comment: *The Future of the Forestry Work-force*, by Dr John J. Garland 101

Guest Comment: *Economic Growth* versus *The Environment*, by Dr John M. Gowdy 102–4

Notice: *Confidential Awards Committee: 'Best Paper' Prizes for 1991* 124

Main Papers:

Human Behavioural Ecology and Environmental Conservation, by Joel T. Heinen & Professor Roberta ('Bobbi') S. Low (fig. and table) 105–16

The Pastoral Road to Extinction: Competition Between Wildlife and Traditional Pastoralism in East Africa, by Professor Herbert H.T. Prins (fig. and map) 117–23

Importance of Wild Animals and Their Parts in the Culture, Religious Festivals, and Traditional Medicine in Nigeria, by Dr Moses Olanre Adeola (9 tables) 125–34

Wildlife Utilization and Local People: A Case-study in Upper Lapande Game Management Area, Zambia, by Dr Mundanthra Balakrishnan & Dora E. Ndhlovu (5 figs and 5 tables) 135–44

Land-use Changes and Resources Degradation in South-West Masailand, Tanzania, by Dr Raphael B.B. Mwalyosi (2 figs and 4 tables) 145–52

Effects of Land-use and Collection on the Decline of African Giant Snails in Nigeria, by Gbadebo Jonathan Osemeobo (4 figs and 10 tables) 153–9

Present and Future Use of Fencing in the Management of Larger African Mammals, by Richard E. Hoare (4 figs and 2 tables) 160–4

Short Communications & Reports:

An Example of Climate-relevant Processes Unresolved by Present-day General Circulation Models, by Dr Martin Beniston & J. Pérez-Sánchez (10 figs) 165–9

Why the Ganga (Ganges) Could Not be Cleaned, by Professor Davendra Swaroop Bhargava 170–2

Impacts of Growing Population and Tourism on the Endemic Flora of Andaman and Nicobar Islands, by Dr A.R.P. Sinha (fig. and 2 tables) ..... 173–4 & 182

Notes, News & Comments:

International Academy of The Environment: An Executive Summary, by HE Flavio Cotti, Dominique Föllmi & Professor Bernard Giovannini 175–6

The Morelia Declaration on the Need for an International Court of the Environment, communicated by Adam Markham 176–7

The Halifax Declaration for a Sustainable Biosphere, by President Howard C. Clark & Marilyn MacDonald 177–8

SCOPE Sustainable Biosphere Project: A Summary, by SCOPE Secretariat 178–9

Recommended Policies for Sustainability of European Forest Resources, by Professor Sten Nilsson 179–80

The Dublin Statement on Water and Sustainable Development, communicated by Eirah Gorre-Dale 181

Aquatic Conservation Network Formed to Help Save Endangered Aquatic Life, by Robert V. Huntley 181

Global Environmental Movement Organization (GEMO), by A.P. Gautam 181–2

Conferences & Meetings:

Reports by Professor Samir I. Gabbour, Dr Irene Lorenzo, Dr Lawrence S. Hamilton, Danielle Bridel. Dr Arthur H. Westing, Peter A. Scott, and Nicholas Polunin; **Important Prospects** by Dr Anthony S. Trescott, Radovan Cohout, and Dr Martin Beniston 183–8

Reviews & Notices:

Book Reviews by Chancellor F. Kenneth Hare, Dr F. Raymond Fosberg, Dr Bent Juel-Jensen, and Professor Norman Myers; **Notice of Book** by Professor David W. Pearce, Dr Edward B. Barbier & Anil Markandya 189–92

Nr 3 — Autumn 1992

Editorial Section:

Editorial: *Biosphere Day and Its Needed Fund and Prizes* 193
Notice: Biosphere Day 194
Guest Editorial: *'We Are Worried': The World's Peoples Voice Their Environmental Concerns*, by Dr Richard Weber ..... 195 & 208
Guest Comment: *The Next Century's Environment and Need for Observational Data*, by Academician Kirill Y. Kondratyev 196
Editorial Comments: *1. The Challenge for Rio: Reaching Everywhere on Earth by Means of Global Television*, by Robert Lamb & 197–9
2. Education and Communication, by Nicholas Polunin ..... 200 & 208

Main Papers:

Environmental Refugees: A Growing Category of Displaced Persons, by Dr Arthur H. Westing (4 tables) 201–7
Tree–Habitat Relationships in Urban Hong Kong, by Dr Chi Yung Jim (7 figs and 5 tables) 209–18
Designing for Nature in Cities: A Case-study of the Hill Area of the Summer Villa Estate, Gengde, China, by Dr Gaoming Jiang, Professor Yinxiao Huang & Sunhua Lin (6 figs and 3 tables) 219–25
The Ecology of Rawa Aopa, a Peat-swamp in Sulawesi, Indonesia, by Dr Robert Zwahlen (8 figs and 3 tables) ... 226–34
Biological Conservation Implications of Water-level Fluctuations in a Wetland of International Importance: Lake Kerkini, Macedonia, Greece, by Dr Myrto Pyrovetsi & Dr Evanthia Papastergiadou (10 figs and table) 235–44
Attitudes of Rural Communities to Animal Wildlife and Its Utilization in Chobe Enclave and Mababe Depression, Botswana, by David Parry & Dr Bruce Campbell (7 figs and table) 245–52
The Exxon Valdez *Oil-spill: Ecological and Social Consequences*, by Professor David G. Shaw (2 figs and table) ... 253–8

Short Communications & Reports:

Impacts of the Giant International Oil-spill on Jubail, Saudi Arabia, by Niaz A. Khan (4 figs) 259–61
Status of the Pulmo Coral Reefs in the Lower Gulf of California, by Julie A. Robinson & Professor Donald A. Thomson (3 figs and table) 261–4
A Much-threatened Lake: Lac des Oiseaux in Northeastern Algeria, by Dr B. Samraoui, Dr G. de Belair & S. Benyacoub (4 figs and 2 tables) ..... 264–7 & 276

Notes, News & Comments:

World Human Population Now Totals 5.5 Thousand Millions 268
Alarming Soil Degradation Around the World Revealed by Latest Data, by Shirley Geer (table) 268–70
St Petersburg A-Ya Society Looking for Foreign Collaborators, by Dr Olga A. Nalivkina 270
Solid Waste Association of North America, by H. Lanier Hickman, Jr 270–1
International Wilderness (WILD) Foundation, by Vance G. Martin 271
Biological 'Hotspots' Face Most Serious Threats, by Laura Tangley 271–2
Nature Conservation in Central and Eastern Europe: the Time for Change and Hope, by Eladio Fernandez-Galiano 272–4
Unusually Low Ozone Levels Over Antarctica, by Eirah Gorre-Dale 274
The European Network of Biogenetic Reserves, by Marie-Aude L'Hyver 275–6

Conferences & Meetings:

Reports by Professor Gunavant M. Oza, Professor Roger H. Charlier (2), Professor Makoto Numata, Nicholas Polunin, Dr Arthur L. Dahl, Dr Arthur H. Westing, and Dr Dietmar Keyser 277–82

Reviews & Notices:

Book Reviews by Senator Professor Mohamed Kassas, Professor Garry W. Trompf, Professor W. Robert Stanton, John Rowley, Dr Desmond B.A. Thompson, Dr Richard A. Meganck, and Dr David Duthie; **Notice** of a report by Dr Robert Repetto 283–8

Nr 4 — Winter 1992

Editorial Section:

Guest Editorial: *Reflections on the Role and Future of UNEP*, by Dr Mostafa K. Tolba (fig.) 289–90
Guest Comment: *The View Ahead*, by Michael McCloskey ... 291–3
Guest Comment: *Despite Grave Losses of Forest, Some Good Things are Happening in Amazonia*, by Professor Nigel J. H. Smith 294–5
Notice: *Index of Titles and Authors published in* Environmental Conservation *during 1974–86, with Supplement for 1987–88 and further ongoing Supplements* 293
Notice: *WCB and FEC*, by Nicholas Polunin 296

Main Papers:

Sustainable Development and Biotechnology, by Dr Antoinette M. Mannion (2 figs & 5 tables) 297–306
Carbon Storage and Land-use in Extractive Reserves, Acre, Brazil, by Dr I. Foster Brown, Dr Daniel C. Nepstad, Ivan de O. Pires, Leda M. Luz & Andréa S. Alechandre (2 figs & 4 tables) 307–15
The Wog Wog Habitat Fragmentation Experiment, by Dr Christopher R. Margules (6 figs & 5 tables) 316–25
Environmental Economics and Responsibility, by David Sarokin & Dr Jay Schulkin 326–30
Mahogany Conservation: Status and Policy Initiatives, by Bruce D. Rodan, Dr Adrian C. Newton & Adalberto Verissimo (4 figs & table) ..... 331–8 & 342
CFC Alternatives — A Fresh Look, by Dr Kandadai Srinivasan (fig. & table) 339–42
Protected Natural Areas and the Military, by Dr Arthur H. Westing 343–8
Anthropo-generated Climate Change in Europe, by Professor Robert C. Balling & Dr Sherwood B. Idso (6 figs) 349–53

Short Communications & Reports:

Development of Optical Remote-sensing Techniques for Studying the Quality of Inland Waters, by Academician Kirill Y. Kondratyev & D.V. Pozdniakov 354
Okavango — the 'Jewel that Hangs by a Thread', by Professor J.L. Cloudsley-Thompson (3 figs) 355–7
The Effect of River Damming on the Structure of Two Ripicolous Carabid Beetle Communities in the SW of the Iberian Peninsula, by Professor Ana Maria Cardenas & Carmen Bach (2 figs and 2 tables) 357–9
Bird Community Conservation in Large Blocks of Mountain Pine, by Dr Françoise Lescourret & Dr Michel Génard (table) 359–61
Akpatok Island Revisited, by Professor Irvin R. Hentzel (4 figs) 361–3

Notes, News & Comments:

Victor Abramovich Kovda, 1904–91, byVera A. Dmitrieva & Nicholas Polunin (2 figs) 364–5
Gratifying Recognition of a Colleague, by Nicholas Polunin 365
New IUCN Headquarters (fig.) 366
Rio Declaration on Environment and Development 366–8
Earthwatch Europe, by Brian W. Walker 368
Recycling Paper Products: Some Implications for Environmental Policy, by Sten Nilsson (table) 369–70
Trapnell Fund for Environmental Field Research in Africa, by Dr Peter R. Gambles 370
Symposium Marking Opening of IUCN's New Building, by Nicholas Polunin ..... 370 & 342

Conferences & Meetings:

Reports by Professor Roger H. Charlier (2), Nicholas Polunin, Antony L.T. McCammon, Dr William J. Mitsch, and Professor Makoto Numata; *Important Prospects* by Professor Roger H. Charlier, Dr William K. Michener, and Dr Lawrence S. Hamilton 371–6

Book Reviews & Notices:

Book Reviews by Dr Norman Myers, Dr E. Barton Worthington, Dr Michael B. Usher, Professor Raoul C. Mitchell-Thomé, Dr Colin Clark (2), and Professor Richard Evans Schultes 377–81
